GROW AND LEARN. TRAIN FOR FREEDOM

CORDIAL/EARN, THE FUTURE OF NEON

Welcome to "Neopets" everyone... I did not know this site was this popular yet, and I can use the money. But I guess I have a lot to learn about this site. So if any of you had a neopian pet did you like it? And do you trade neopoints on it? Or.... does it bother you that for some reason every other pet is for sale?

#### Genesis!

Would you like more letters? Well sure! But maybe not this one... another one!  
Go to space! Waaay up there!

#### Here is an off-topic story about the last experiment.... (If it bothers you at all, I will erase it!)

The last experiment's first major breakthrough! Turned out to be a crazy little thing that wouldn't work. But I gave it a chance anyways, well there wasn't enough marbles in the entire world to do the experiment once this little fishy was finished. So, he spent ages swimming around, and one day he laid eggs. Out of nowhere, the young ones started to change and change rapidly.

#### Elden Ring (Updated 2022)

RPG Site (4/5) - "Beats every RPG game released this year in spades." Gamehype (4/5) - "This is the game that's been building up inside of me since the dark days of Ragnarok Online." Games Planet (4/5) - "Being able to customize its own characters has always been one of Ragnarok Online's greatest strengths and it's the same thing here. The ability to change the appearance of your character sounds extremely interesting. More than that, you're given the chance to use your customizations to create your own action-RPG dream. As such, it's safe to say that we're in for an exciting journey in the Lands Between." - "My wish for an Elden Ring game is for it to be the ultimate RPG battle game. One where you create your own characters, fight with friends, and do all of that while receiving a terrible feeling of hopelessness. In short, for it to be the ultimate battle game, I'd like to be able to create a mythical character that I created that possessed special powers, such as winning all 10 of the previous lords of the Rings, and a legendary armor with insanely powerful and damaging attacks. Basically, if there's a character that I'd like to play in an actual RPG game, it'd be one of these characters." - "The graphics are beautiful and the whole environment looks awesome. Elden Ring does come with a few problems, though, such as the game's character creation system being rather limited and having a learning curve that's far too high. Those things are expected in most RPGs, though, but the other half is unbelievable, such as how the game can be a multiplayer online action RPG, whereas the character creation system isn't even one that you can use to create your own character. Personally, I just didn't get how the ability to create your own character wouldn't also allow you to create it for the game. As such, having been able to create my own character isn't something that I'd be able to express how I feel to you, but rather than feeling something like, 'oh man, this is so great!', I'd rather give it a thumbs down. This entire game just isn't working at all for me. If I think about it, if I ever wanted to create a character, I would probably use an avatar creator first before creating a character that would actually be used in the actual game. bff6bb2d33

#### What's new in Elden Ring:

Sun, 08 Dec 2016 22:07:54 GMT

Launching on November 16th, the **LOOSEELY CONNECTED** online action RPG where the history of the Dual Universe is told in an endless Fractal, featuring a large variety of quests with all enemies on two screens instead of a single one in a stand-alone box.

You are a Tarnished, arriving from the Third Dimension, high on the side of light, and longing for answers.

Heedless of the animosity of the Principality and find yourself drawn to an endless Fractal.

Explore the oldest map available to pre-order players, then dive into the endless Fractal in a death match against all enemies on two screens.

Fight at your own pace to increase your score!

Race against friends to acquire scores and materials for your equipment that you can use in the Fractal!

You will meet many more Tarnished from the Third Dimension who await your arrival, and you can chat with them using simple text chat.

Quest for money, score, and equipment and help find PAST answers on a journey of revenge for the Ultima III developers.

Choose your passions from multiple Character Classes: Warriors, Rogues and Magicians.
